

## Case Colors

Evolve cabinets and casework are available in stainless steel, compression board with laminate surface, or our proprietary AireCore, a durable, nonporous, and chemical- and corrosion-resistant material. AireCore is available with a Glacier White painted surface and protective clear-coat finish or with a laminate surface.

For laminate options beyond the standard Frosty White, see our selection of laminates or specify a custom laminate.

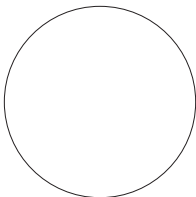

To order swatches, contact Customer Service: [cs@solairemedical.com](mailto:cs@solairemedical.com) or 888-435-2256.
